Feeding Directions Feed Everyday Emu Grower/Maintenance Pellets as follows:

Growing Emus: Feed free choice from 2 months to breeding age.

Maintenance: Feed at least 4x a day the amount the bird will clean up in approximately 30 minutes, depending on birds' condition. Hay or Alfalfa Pellets can make up around ½ the diet. Provide grit if needed. Birds should have plenty of exercise.

Always provide plenty of clean fresh water.

The suggested feeding program is for use as a guide only. The animal's requirements may change due to breed, environment and management.
