Everyday Low Starch Horse Pellet is a lower protein, high fat pellet containing a higher fermentable fiber and lower starch and sugar levels. Everyday Low Starch may be fed to many types of horses and in different feeding programs.

Adult Horses	lbs Low Starch/100 lbs Body Wght.
MAINT	0.40 – 0.70
LIGHT WORK	0.50 – 0.80
MEDIUM WORK	0.60 – 0.95
HEAVY WORK	0.70 – 1.10
Breeding Horses	
MARE – last 3 mos. of pregnancy	0.50 – 0.70
STALLION	0.50 – 0.70
Yearlings to 2 yrs. old	0.50 – 1.20
Other	
STARCH/ADVERSE	0.50 – 1.25

Adjust the feeding of Everyday Low Starch depending on the condition of the horse. Provide horses with good quality hay or pasture and salt free choice. Everyday Low Starch can replace a portion of a horses daily hay intake. *Always provide plenty of fresh clean water.*

Everyday Low Starch may be fed in conjunction with other Everyday Horse Feeds.

Other Information:

- Starch level is less than 12.00%.
- 6% Fat increases the energy density of the ration and efficiency of digestion.
- Vegetable oil helps improve skin, hair condition and appearance.
- Fiber - highly fermentable fiber sources help promote good digestion.
- Added Lysine and Methionine aid in growth and muscle tissue rebuilding.
- Improved Vitamin mineral package to meet the horse's needs.
- Antioxidants – Vitamin E and stable Vitamin C are important in supporting a strong immune response.
- Yeast Culture helps keep the microbial population at healthy levels for efficiency of digestion.

The suggested feeding program is for use as a guide only. The animal's requirements may change due to breed, condition, environment and management.
